# OUR PARTNERS

THE CCPC REGULARLY PARTNERS WITH THE FOLLOWING ORGANIZATIONS

First 5 San Mateo County is entrusted with the strategic investment of nearly \$7 million of public dollars each year specifically earmarked to support the success of children ages 0-5 and their families.

As the Resource & Referral (R&R) agency in our community, the 4Cs supports parents, providers, and the local community in finding, planning for, paying for, and accessing affordable, quality child care.

Build Up addresses a critical shortage of affordable, high-quality child care and preschool options by focusing on the preservation of facilities/spaces while continuing to shepherd new projects into the development pipeline to meet future needs.

Early Childhood Development at Silicon Valley Community Foundation works to dismantle systemic barriers and give all children and their families access to the care, education and resources they need to flourish.

Led by the County of San Mateo, the San Mateo County Office of Education, and Silicon Valley Community Foundation, The Big Lift is a preschool to third grade collective impact initiative to increase the percentage of students reading proficiently at third grade. Four coordinated, data driven interventions reach 3,000 low-income children annually across seven school districts.

The Early Childhood Education programs at Skyline College, Cañada College and the College of San Mateo support a professional early care and education workforce through academic certificates and degrees designed to both provide the competencies necessary for high-quality experiences for children, and to advance ECE professionals on their career pathway toward a living wage.
