

THRIVING FAMILIES SYMPOSIUM: THE NEXT DECADE

Generating community solutions to San Mateo County's child care crisis

The San Mateo County Child Care Needs Assessment found a critical child care shortage in San Mateo County with serious implications for our community. We ask you to partner with us to identify community solutions to ensure our communities have equitable access to high quality, affordable childcare.

To turn data into action we need your help. At this symposium, we will:

- ✓ Engage with the assessment findings
- ✓ Explore promising practices
- ✓ Build community solutions

This symposium is the start of an important conversation about real solutions. We need your expertise, your experience, and your support to make this a county where families can thrive. Join us!
